ABOUT ME

A passionate and dedicated Computer Science Engineering student with a strong foundation in software development and problem-solving. Seeking an opportunity to contribute and expand my technical skills in a dynamic environment.

EXPERIENCE

Web Development Intern
CoderRoots, Mohali | Jan 2025 – Present

- Learned and worked on web development using HTML, CSS, JavaScript, and React.js.
- Helped build and improve user interfaces for real-world projects.
- Gained experience with Git for version control and teamwork.
- Assisted in creating and testing website features.
- Improved problem-solving and coding skills by working with mentors.

PROJECT

EDUSITY – COLLEGE WEBSITE

Edusity is a minor project developed to manage and display college events for BCET. This project allowed me to upskill my technical skills by creating a responsive, interactive website using modern web technologies. I focused on building a user-friendly interface and ensuring cross-device compatibility, which helped enhance my front-end development skills.

Key Features :

- Dashboard for news, events, and announcements
- Fully responsive and mobile-friendly design
- Cross-browser compatibility
- Dashboard for news, events, and announcements

Technologies Used :

- Frontend: HTML, CSS, JavaScript
- Version Control: GitHub
- Responsive Design: Ensured cross-device compatibility and optimized performance
